RULES

Intramural Pickleball abides by the USAPA & International Federation of Pickleball Rules with the following exceptions or points of emphasis:

1. Match Format: During pool play, matches are timed 7-minute games (finish the point when time is called). Score is kept and reported to an Activity Supervisor. Seeding tiebreaker is determined by point differential. During tournament, matches are the best 2 out of 3 games played to 11 points win by 2, cap at 15.
2. Service and Scoring: The first serve of each side-out is made from the right-hand court, alternating sides as service is retained. To begin each game, only one partner on the serving team gets to serve before the service passes to the receiving team, otherwise both players on the serving team are allowed to serve before the service passes to the receiving team. Points are scored only by the serving team. Note that if the serve rotation is done properly, the serving team's score will always be even when the player that started the game on the right side is on the right side, and odd when that player is on the left side.
3. Double-Bounce Rule: When the ball is served, the receiving team must let it bounce before returning, and then the serving team must let it bounce before returning, thus two bounces.
4. Non-Volley Zone (Kitchen): The non-volley zone is the court area within 7 feet on both sides of the net. Volleying is prohibited within the non-volley zone.
